

STOCK CARTONS

Need cartons in a hurry? We have a selection of cartons that we keep in stock with handy sizes that are suitable for a mix of applications.

As stock cartons get used for packing a wide range of products in varying weights and internal volumes, our stock cartons are made from upgraded board grades that offer greater strength for better stacking capability and more resistance to bulging or bursting.

Length - Longest side of carton as it sits on a surface
Width - Shorter side of carton as it sits on a surface
Depth - Height of carton as it sits on a surface

NOTE: All measurements are taken from the inside of the carton

Need to add printing to the stock cartons? No problem!

We can print onto the stock cartons using our digital printer.

Imagine your own branding or artwork printed in full colour with pigment inks that will not smudge or smear, even if they get wet.

Ask us how.
